INTRODUCTION

Supportive Global Economy is crucial for Developing Countries; as such the United Nations (UN) has formulated the United Nations Sustainable Development Goals (SDGs, a total of 17). This training workshop will illustrate the fundamentals of Maintenance of Infrastructure as one of the key to satisfy the SDGs.

Infrastructure maintenance has an integral role which covers the following seven of the SDGs Goals.

SDG 3	Good Health and Wellbeing	SDG 9	Industry, Innovation, Infrastructure
SDG 4	Quality Education	SDG 11	Sustainable Cities and Communities
SDG 6	Clean Water and Sanitation	SDG 12	Responsible, Consumption and Production
SDG 7	Affordable Clean Energy		

Infrastructure maintenance will sustain the life of major assets. When provided too soon or too late, it will incur unnecessary costs, compromise safety and the asset's economic life span.

Prudent investment will promote economic return; create jobs, human capital development and enhance the environment which captures the following nine of the SDGs goals.

SDG 1	No Poverty	SDG 13	Climate Action
SDG 2	Zero Hunger	SDG 14	Life Below Water
SDG 5	Gender Equality	SDG 15	Life on Land
SDG 8	Decent Work and Economic Growth	SDG 16	Peace, Justice Strong Institution
SDG 10	Reduce Inequalities		

At the current status there is limited infrastructure maintenance budget for the developing countries but budget for new infrastructure is always available.

Ascertain Institutional Framework on Infrastructure Maintenance (e.g. roads, water, sanitation and buildings) and good practices for planning, designing and implementing maintenance programmes will be highlighted. Based on maintenance standards, budgeting norms will be developed to facilitate accurate long-term maintenance budget forecasting, taking into account the type, age and condition of the infrastructure.

This workshop in actual fact concludes the final SDGs, 'SDG 17 - Partnership for the Goals' where Malaysia is taking a lead. The programme covers the Malaysian Ascertain Institutional Framework on Infrastructure Maintenance; assessment needs, planning, execution, including financial planning and budgetary control.

THE OUTCOMES OF THE TRAINING WORKSHOP

- Consensus on the benefits of planned maintenance;
- Have the basic knowledge and motivation to promote the maintenance culture for its seamless implementation,
- Essential insights into the trend, technology and financing for maintenance of major infrastructures;
- Become members of the ISTIC alumni for infrastructure maintenance, and
- Be aware of the engineering related opportunities in the host country and contact assistance to undertake an infrastructure maintenance programme.

DURATION OF THE TRAINING WORKSHOP

The training workshop will be held for three and half days from **25th to 28th July 2016**

ISTIC
INTERNATIONAL SCIENCE, TECHNOLOGY AND
INNOVATION CENTRE FOR SOUTH-SOUTH
COOPERATION UNDER THE AUSPICES OF UNESCO

**International Science, Technology and Innovation
Centre for South-South Cooperation under the
Auspices of UNESCO (ISTIC)**

The creation of the International Science, Technology and Innovation Centre for South-South Cooperation under the Auspices of UNESCO (ISTIC) is a follow up of the Doha Plan of Action which has been adopted by the Head of States and Government of the Group of 77 and China, during the meeting in Doha, Qatar, from 12 to 16 June 2005 on the occasion of the Second South Summit of the Group of 77.

The Summit urged UNESCO to develop and implement a programme for South-South cooperation in science and technology with the objective of facilitating the integration of a developmental approach into national science and technology and innovation policies, capacity building in science and technology through providing policy advice and exchange of experience and best practices, and creating a problem solving network of centres of excellence in developing countries as well as supporting the exchange of students, researchers, scientists and technologists among developing countries.

ISTIC will act as an International Platform for South-South Cooperation in Science, Technology and Innovation and make use of the network of the G77 plus China and the Organization of the Islamic Conference (OIC). The overall goal of ISTIC is to increase the capacity for management of science, technology and innovation throughout developing countries. ISTIC Secretariat is hosted by Academy of Sciences Malaysia (ASM) for five years before making ISTIC an autonomous organization.
